Welcome to CMP

At Cohen Medical Practice, our mission is to provide exceptional, patient-centered women's health and gynecological surgery with compassion, expertise, and innovation.

We believe every patient deserves care that is accessible, inclusive, and guided by the highest standards of medical excellence.

Our multilingual team speaks **English, Spanish, Russian, and Korean**, reflecting the diversity of the communities we serve. **As a proud partner of OUT Health**, we are committed to supporting all members of our community and fostering a safe and welcoming environment for every patient.

With convenient locations in **Midtown East, Midtown West, and Queens**, we strive to meet patients where they are, offering flexible access across the city. Our practice brings together a variety of specialists, in-office ultrasound services, and state-of-the-art technology to ensure comprehensive care in one place.

We also partner with some of the best surgical facilities in the state, including **Mount Sinai, Northwell Health-Lenox Hill, and Gramercy Surgery Center**, to give our patients access to the highest level of surgical care available.

As **members of the United States Women's Health Alliance**, we are proud to stand at the forefront of advancing women's health nationwide. **We accept most major insurances**, making quality care both attainable and accessible.

At CMP, you can expect more than medical treatment. You can expect a partnership in your health, grounded in trust, inclusivity, and excellence.

Patient Reviews ★★★★★

Let us know about your experience.

Please email our patient experience coordinator at suzanne@nycgyne.com.

"Dr. Bucknor was so patient, understanding, and made sure to meet all my needs-10/10"

Erica N.

"Dr. Alyssa Erb is amazing- clear, unhurried, and personable - plus her staff is sweet, helpful, and efficient."

Dianna D.

"Cohen Medical felt like a breath of fresh air- the office is clean, the staff is kind, and Dr. Erb is a ray of sunshine."

Dame H.

"Dr. Erb is calm, professional, and answers all my questions. Her staff is super friendly and professional- definitely a 10/10!"

Angela L.

"Dr. Robinson and her nurse made me feel heard and never judged. The front staff was efficient, and my whole visit felt validating."

Olivia H.

"The staff was professional, kind, and efficient, and the doctor's care showed she's truly a doctor at heart."

Ivonne V.

"Jane made my IUD insertion smooth and comfortable, and Suzanne, the ultrasound tech, was an absolute angel-the whole staff was welcoming."

Kristen J.

"Dr. Cohen was thorough, knowledgeable, and never rushed me. The nurse, ultrasound tech, and front desk staff were all outstanding."

Katerina S.

"Dr. Bucknor has a calming, positive presence. Her staff made me feel comfortable and completely changed how I feel about going to the GYN."

Kristin M.

FAQs

Do you offer same-day appointments?

Yes, we do offer same-day appointments when availability allows. If you prefer a specific provider or location, we recommend booking in advance. When same-day openings are available, we'll always do our best to accommodate. We just ask for your patience, as there may be slightly longer wait times for insurance verification and paperwork.

Do you offer same-day procedures?

While we do our best to accommodate each patient's needs, we generally schedule a consultation first to discuss all details of the procedure, including risks, benefits, downtime, and next steps. In certain situations, and if the provider's schedule allows, we may accommodate a same-day procedure. This is determined on a case-by-case basis, depending on the provider's recommendation, schedule flow, and patient comfort.

Can I get an ultrasound the same day?

Yes. We offer same-day, in-office ultrasounds at all CMP locations.

Do I need a referral to see a provider?

Most insurance plans do not require a referral for gynecology visits. However, we always recommend checking directly with your insurance carrier to confirm your specific plan requirements.

How often should I schedule a well-woman exam?

We generally recommend annual visits for preventive care, even if you're not experiencing any symptoms. These visits are important for screenings, updates to your medical history, and maintaining overall feminine health.

What if I'm on my period the day of my appointment?

You can still come to your appointment. In general, it's easiest to be seen right after your period, but the timing can be adjusted based on your comfort level and the reason for your visit.

Do you draw bloodwork in the office?

Yes. We have trained medical assistants who perform blood draws on-site for patient convenience.

How will I get my test results?

You'll receive your results securely through your patient portal or by email from your provider or the CMP Post-Clinical Results Team. Please make sure you have the most up-to-date email on file and have enabled your OnPatient Portal. If you do not wish to enroll, our team will email you.

Do you offer birth control options in-office?

Yes. We offer a wide range of contraceptive options, including pills, patches, injections, IUDs, and implants. Your provider will review the best choice for you during your visit.

Do you provide OB care?

CMP focuses exclusively on gynecologic care and surgery. We help many patients get pregnant, monitor pregnancies up to 10 weeks, and then refer to our trusted network of obstetricians.

Will I see a provider at my appointment?

Yes, every appointment includes a visit with a licensed provider. Our team includes Nurse Practitioners, Medical Doctors, and Senior Medical Directors.

How do you manage pain in the office?

We offer several options for pain management, depending on the procedure and patient preference. These range from over-the-counter pain relievers (often recommended prior to your visit) to more advanced options like Pro-Nox™, a nitrous oxide system that provides temporary sedation to ease nerves and discomfort. We also include small comforts like heating pads and stress balls.

Do you use chaperones?

Yes. Chaperones are always present during sensitive examinations or procedures for the comfort and safety of our patients.

How do I contact my provider after my appointment?

You can message your provider directly through the patient portal for non-urgent questions. For urgent matters, please call or email the office directly.

Do your providers speak other languages?

Yes. Our providers speak English, Russian, and Korean, and we also offer in-person medical translation for Spanish-speaking patients.
